

Electorate of Heathcote

Spanning from Menai and part of Kirrawee in the north to Wombarra and northern Coledale in the south, the Heathcote Electorate is blessed with some of the most spectacular scenery in NSW and arguably the world.

My responsibility as your local member is to encourage economic growth while advancing environmental sustainability. This is a balance that will not be taken lightly as the coal mining industry has more than 100 years in Helensburgh and is a major source of employment.

With more than 62,000 residents spread over 458 square kms, 91 percent of our community speak English and as their first language and 76 percent live in a separate house on an individual block.

We are a proud, hardworking community and I will work hard in Parliament to improve the lives of my constituents.
